

# BRIDGE WELDING CERTIFICATION

Oklahoma LTAP Program

<http://ltap.okstate.edu>

*Center for Local Government Technology  
Oklahoma State University*

Monday & Tuesday, March 19-20, 2018

Canadian Valley Technology Center - El Reno Campus

*6505 E. US Highway 66 ~ El Reno, Oklahoma 73036*

**We only have 20 spots available for this very limited class, so please enroll your personnel as soon as possible.**

This (2) two-day course is for experienced welders capable of passing the AASHTO/AWS D 1.5M/D 1.5 welding code certification test. The first day of class, students will review the welds they will be required to perform on the test. They will also be evaluated to determine if they have the skills necessary to become certified.

On the morning of the second day, an independent welding certification firm will test students on AASHTO/AWS D1.5M/D 1.5.

Those passing will be certified. There is a cost of \$80.00 for the certification test on the second day.

The students, or their local government agencies will be invoiced by the independent welding certification firm whether they pass or fail the exam. The Oklahoma LTAP Program will pay for the instructor, facility cost, and \$270.00 of the \$350.00 testing and certification fee, the students must pay the remainder of \$80.00 to an independent welding certification firm if they test on the second day.

There is "no-charge" for the FIRST day of training prior to the testing!
