

Oklahoma LTAP Presents

AGGREGATE ROAD MAINTENANCE

Thursday, NOVEMBER 15, 2018

Center for Local Government Technology ~ Stillwater, Oklahoma

Aggregate Road Maintenance

On Thursday, November 15, 2018 this one-day LTAP Roads Scholar course covers the fundamentals of maintaining low-volume, rural roads.

Drainage, road cross sections, culvert installation, soil properties, grading methods, use of geo-synthetics and chip sealing are all discussed.

Who Should Attend:

Anyone involved in the building or the maintenance of unpaved aggregate roads will benefit from the practices taught in this course. County, Municipalities, Tribal, Forestry, or anyone that wishes to attend are welcome to sign-up for this one-day, free of charge Roads Scholar Course #1 workshop.

Aggregate Roads Maintenance
